Dear Sir,

**Sub.: Report on Fair Value of Equity Shares for the purpose of Preferential Allotment of Equity Shares in terms of SEBI (ICDR) Regulation, 2018**

I have performed a valuation engagement in respect of "Landmarc Leisure Corporation Limited" (referred hereinafter as "LLCL" or "the Company") as on the Relevant Date i.e. May 21, 2025 for raising the funds. This valuation was performed on fair value base solely for the purpose of preferential allotment of Equity Shares in terms of Regulation 165 and 166A of SEBI (ICDR) Regulation, 2018 as amended from time to time.

The resulting estimate of value should not be used for any purpose or by any other party for any purpose other than the one identified above. I have estimated the fair value per equity share of the Company to be **INR 1.11/- per share of INR 1.00/- each.**

This conclusion is subject to the Statement of Assumptions and Limiting Conditions found in the later part of this report. A detailed working of the valuation can be found in later part of this report. I have no obligation to update this report or my conclusion of value for information that comes to my attention after the date of this report.

**A. Background information of the Target Company**

I have not independently verified the accuracy or timelines and it is important to note that I have relied upon the information provided to me and referred to above. I have not endeavored to seek an independent confirmation of its reliability, accuracy or completeness beyond what is reasonably necessary and prudent in the circumstances. I have not performed any form of audit or verification of the information that I have relied upon. Accordingly, the Valuer accepts no responsibility for any errors in the information on which the valuation conclusions are based.

**I. Procedures adopted in carrying out valuation and valuation standards followed**

My analysis of value of the Company i.e Landmarc Leisure Corporation Limited is based on the International Valuation Standards, ICAI Valuation Standards and the prescriptions laid down in Companies (Registered Valuer's and Valuation) Rules, 2017 as well as the requirements of the Securities and Exchange Board of India (ICDR) Regulation, 2018. Some of the key procedures in carrying out the valuation engagement are:

- a. Understanding the nature and purpose of the transaction.
- b. Selection of the valuation approach and the corresponding valuation methodology. The standard valuation approaches and methodologies are as below:
  - 1) Asset Approach
  - 2) Income Approach
  - 3) Market Approach
- c. Performing the valuation engagement and arriving at the valuation conclusion

**J. Valuation Methodology & Valuations**

This valuation report is prepared on a fair value base. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the valuation date.

Amongst the valuation methodologies identified in the valuation standards, I have considered the "Net Asset Value" method under Asset Approach, Profit Earning Capacity Value (PECV) method under Income Approach and "Share Market Price" method under the Market Approach as the most appropriate methodology for the purpose of valuing the company.

**1) Asset Approach – Net Asset Value Method (NAV)**

The asset-based value analysis technique is based on the value of the underlying net assets of the business, either on a book value basis, realizable value basis or replacement cost basis. This value analysis approach is mainly used in case where the firm is to be liquidated i.e. it does not meet the "going concern" criteria or in case where the assets base

**AJAYKUMAR SUKHADIYA**

B.Com, FCA, CS, DISA, Registered Valuer (F&A)

dominates earnings capability. It is also used where the main strength of the business is its asset backing rather than its capacity or potential to earn profits.

Book value is considered important in terms of valuation because it represents a fair and accurate picture of a company's worth. The book value of equity share based on latest Audited Balance Sheet i.e as on March 31, 2024 is **INR 0.32/- per share** and based on latest Unaudited Balance Sheet i.e as on September 30, 2024 is **INR 0.31/- per share** given as under:

Amount (In INR Lakhs)		
Particular	March 31, 2024 (Audited)	September 30, 2024 (Unaudited)
Book Value of Assets (A)	4,259.97	4,239.57
Liabilities	4,259.97	4,239.57
Less: Equity Paid up Capital	8,000.00	8,000.00
Less: Other Equity (attributable to Equity Shareholders)	-5,473.61	-5,483.60
Book Value of Liabilities (L)	1,733.58	1,723.17
Net Value of Assets (A-L)	2,526.39	2,516.40
No. of Equity Shares (In Lakhs)	8,000.00	8,000.00
Fair Value per Equity Shares (In INR)	0.3158	0.3146

For the purpose of calculation of Fair Market Value via Asset Approach, I have considered the highest value from the above i.e INR 0.3158/- per share of INR 1.00/- each.

**2) Income Approach – Profit Earning Capacity Value (PECV)**

This method of valuation presumes the continuity of business and uses the past and projected earnings to arrive at an estimate of future maintainable profits. For the purpose of the Profit Earning Capacity Value (PECV) of the shares, the commonly accepted approach is to capitalize average earnings, past and projected at an appropriate rate of capitalization, to arrive at a fair value per share. In the calculation of PECV, provision for taxation at the current statutory rate is normally considered because the crux of estimate the PECV lies in the assessment of the future maintainable profits of the business. It should not be overlooked that the valuation is for the future and that it is the future maintainable streams of earnings that is of greater significance in the process of valuation.

**AJAYKUMAR SUKHADIYA**

**B.Com, FCA, CS, DISA, Registered Valuer (F&A)**

The Company had declared negative PAT for all the past 3 financial years i.e FY 2021-22, FY 2022-23, FY 2023-24 and as well as for the 9 months period ended Dec 31, 2024. Accordingly, the Company is loss making Company and accordingly no valuation can be carried out from the Income Approach.

Hence for the purpose of calculation of Fair Market Value via Income Approach, I have ignored this valuation approach.

**3) Market Approach – Share Market Price**

Under the Share Market Price method, a Valuer considers the traded price observed over a reasonable period while valuing assets which are traded in the active market. For this purpose, one considers the market where the trading volume of asset is the highest when such asset is traded in more than one active market. The valuation standards also prescribe that the Valuer should use average price of the asset over a reasonable period and use a weighted average or volume weighted average to reduce the impact of volatility or any one-time event in the asset. It is also important to note that as a listed company, pricing of the company for the purpose of preferential allotment of Equity Shares is governed by the Pricing Regulations under Securities and Exchange Board of India (ICDR) Regulations, 2018.

In terms of Regulation 164 of SEBI (ICDR) Regulation, 2018, the price of the equity shares to be allotted pursuant to the preferential issue shall be not less than higher of the following:

- the 90 trading days' volume weighted average price of the related equity shares quoted on the recognized stock exchange preceding the relevant date; or
- the 10 trading days' volume weighted average prices of the related equity shares quoted on a recognized stock exchange preceding the relevant date.

As per Regulation 164(5) of the ICDR Regulations, the "Frequently traded shares" means the shares of the issuer, in which the traded turnover on any recognised stock exchange during the 240 trading days preceding the relevant date, is at least ten per cent of the total number of shares of such class of shares of the issuer. **The shares of the Issuer Company in this case are thinly traded i.e around 3% only and hence considered as infrequently traded shares.**

As per Regulation 165 of the ICDR Regulations, where the shares of an issuer are not frequently traded, the price to be determined by taking into account the valuation parameters including book value, comparable trading multiples, and such other parameters as are customary for valuation of shares of such companies. Even though the

shares of the Issuer Company are not frequently traded, I have also considered the Share Market Price and given equivalent weightage as given to other Approaches. The fair price as per this approach is as given below:

Sr. No.	Particular	Total No. of Traded Shares	Total Traded Value	Volume Weighted Average Price
A	90 trading days VWAP of the related equity shares quoted on the recognised stock exchange preceding the date of this valuation report i.e from Jan 07, 2025 to May 20, 2025	86,19,799	1,48,06,315	1.7177
B	10 trading days VWAP of the related equity shares quoted on the recognised stock exchange preceding the date of this valuation report i.e from May 07, 2025 to May 20, 2025	10,21,486	19,33,078	1.8924

**For the purpose of calculation of Fair Market Value via Market Approach, I have considered the highest value from the above i.e INR 1.8924/- per share of INR 1.00/- each.**

**K. Conclusion**

The current valuation has been carried out based on the discussed valuation methodologies explained herein earlier. Further, various qualitative factors, the business dynamics and growth potential of the business, having regard to information base, key underlying assumptions and limitations were given due consideration. I had given equal weightage to Asset Approach as well as to the Market Approach, as these approaches are the most recognized & acceptable approaches around the globe. In this case, I had ignored the Income Approach as the Company is a loss-making company for all the relevant period. Based on the valuation exercise carried out by me in terms of the methodology identified above, the relative value per share shall be the weightage fair value per share, as given below:

Particulars	Price per share (INR)	Weightage	Total
Asset Approach – Net Asset Value Method	0.3158	1	0.3158
Income Approach – Profit Earning Capacity Value*	NA	NA	NA
Market Approach – Share Market Price	1.8924	1	1.8924
Total		2	2.2082
<b>Fair Value per Equity Share (In INR)</b>			<b>1.11/-</b>

\* Negative earning.

**AJAYKUMAR SUKHADIYA**

**B.Com, FCA, CS, DISA, Registered Valuer (F&A)**

On the above basis of the foregoing, the fair value of equity shares of Landmarc Leisure Corporation Limited is arrived at **INR 1.11/- per share of INR 1.00/- each.**

**L. Restrictions on use of the valuation report, if any**

This valuation report is meant for use for the limited purpose of issue of Equity Shares / Convertible Warrants on preferential basis as on the valuation date or on a date close to the valuation date. It should not be used for any other purpose and by any other persons. Further, the valuation report is based on the available financial information from the company and publicly available sources which I believe to be accurate. I accept no responsibility for any errors in the information on which the valuation conclusions are based.

**M. Caveats, limitation and disclaimers to the extent they explain or elucidate the limitations faced by Valuer**

My report is subject to the scope and limitations detailed hereinafter. As such the report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein and in the context of the purpose for which it is made.

1. This report has been prepared for the purposes stated herein and should not be relied upon for any other purpose. The Company is the only authorized user of this report and is restricted for the purpose indicated in the engagement letter. The Report should not be copied or reproduced without obtaining my prior written approval for any purpose other than the purpose for which it is prepared.
2. In the course of the valuation, I was provided with both written and verbal information. I have however, evaluated the information provided to me by the Company through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement. My conclusions are based on the assumptions, forecasts and other information given by/on behalf of the Company.
3. The valuation report is tempered by the exercise of judicious discretion by the RV, taking into account the relevant factors. There will always be several factors, e.g. management capability, present and prospective competition, yield on comparable securities, market sentiment, etc. which may not be apparent from the Balance Sheet but could strongly influence the value.
4. While my work has involved an analysis of financial information and accounting records, my engagement does not include an audit in accordance with generally accepted auditing standards of the clients existing business records. Accordingly, I express no audit opinion or any other form of assurance on this information.

7. I have relied on data from external sources also to conclude the valuation. These sources are believed to be reliable and therefore, I assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where I have relied on data, opinions or estimates from external sources, reasonable care has been taken to ensure that such data has been correctly extracted from those sources and /or reproduced in its proper form and context.
8. The user to which this valuation is addressed should read the basis upon which the valuation has been done and be aware of the potential for later variations in value due to factors that are unforeseen at the valuation date. Due to possible changes in market forces and circumstances, this valuation report can only be regarded as relevant as at the valuation date.
9. I owe responsibility to only to the authority/client that has appointed me under the terms of the engagement letter. I will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions or advice given by any other person. In no event shall I be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the client or companies, their directors, employees or agents.
10. The report assumes that the company complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the company will be managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigations and other contingent liabilities that are not recorded/reflected in the balance sheet/fixed assets register provided to me.
